
# Encore USB 2.0 PCI Controller Card

## Model Number:

- **ENLUSB2-5PCI-BR**

## Product Description:

Encore USB 2.0 PCI Controller Card is a value-added, high speed I/O adapter that works with USB peripherals, such as printers, webcams, hard drives and MP3 players. It provides backward compatibility to USB 1.1 devices as well as up-to-480Mbps connections to USB 2.0 products. It has four external ports and 1 internal port; each port automatically detects the correct speed and functions of the attached device.

ENLUSB2-5PCI-BR's hot swapping feature allows you to attach or remove devices without turning your system off. In addition, the 480Mbps data transfer rate makes this I/O card ideal for external storage, backup, networking and video devices. Attach as many USB peripherals as you need* without cluttering your desktop or re-configuring your computer settings.

*You can connect up to 127 USB products by cascading USB 2.0 hubs, such as Encore 4-Port USB Hub (ENU-4USB)

## Key Features:

- Supports USB devices, such as webcams, printers, hard drives and MP3 players
- Features 4 external Type A USB ports and 1 internal Type A USB port
- Transmits data at a rate up to 480Mbps (40X faster than USB 1.1 standard)
